

Calculating your GPA & CGPA

The GPA (Grade Point Average) is a result of the total credits you have taken and the total credits that you have earned here at UCTI. The CGPA (Cumulative Grade Point Average) is the cumulative aggregation of your GPA of all semesters you have studied.

- Grades from other institutions do not count toward your GPA here
- MQA modules do not count toward your GPA

Grade Point Table

Marks	Alphabetical Grade	Grade Point	Grade Classification
80-100	A+	4.0	Distinction
75-79	A	3.7	
70-74	B+	3.3	Credit
65-69	B	3.0	
60-64	C+	2.7	Pass
55-59	C	2.3	
50-54	D	2.0	
40 to 49	D-	1.0	Compensatable Fail/Marginal Fail
Less than 40	F	0	Non-compensatable Fail

Example: GPA Calculation for Foundation (3 semesters)

Semester 1:

Modules	Credit Hours	Grade Point	Total Grade Point
Organisational and Social Environments	4	3	12
IT Applications	4	2.5	10
Computing and IT	4	3	12
Perspectives in Technology	4	3	12
Total Credits =	16	Total Points =	46

Divide the total points by the total credits taken to get your semester grade point average.

$$\frac{\text{Total points earned for semester} = 46}{\text{Total credits taken for semester} = 16} = 2.88 \text{ (your GPA for this semester)}$$

Semester 2:

Modules	Credit Hours	Grade Point	Total Grade Points
Communication Skills	4	2	8
Introduction to Business	4	3.5	14
Quantitative Methods	3	3.5	10.5
Research Methods for Degree Study	4	3.5	14
Total Credits =	15	Total Points =	46.5

GPA: Divide the total points by the total credits taken to obtain your semester grade point average.

$$\frac{\text{Total points earned for semester} = 46.5}{\text{Total credits taken for semester} = 15} = 3.1 \text{ (your GPA for this semester)}$$

CGPA: Divide the sum of the 2 semester total points with total credit hours for 2 semesters.

$$\frac{\text{Total points for semester 1 \& 2} = 46 + 46.5 = 92.5}{\text{Total credit taken for 2 semesters} = 16 + 15 = 31} = 2.98 \text{ (your CGPA for 2 semesters)}$$

Semester 3:

Modules	Credit Hours	Grade Point	Total Grade Points
Personal Development and Study Methods	4	2.5	10
Mathematics	3	4	12
English	4	2	8
Total Credits =	11	Total Points =	30

Divided the total points by the total credits taken to get your semester grade point average.

$$\frac{\text{Total points earned for semester} = 30}{\text{Total credits taken for semester} = 11} = 2.7 \text{ (your GPA for this semester)}$$

CGPA: Divide the sum of the 3 semester total points with total credit hours for 3 semesters.

$$\frac{\text{Total points for semester 1, 2 \& 3} = 46 + 46.5 + 30}{\text{Total credits taken for 3 semesters} = 16 + 15 + 11} = \frac{122.5}{42} = 2.92 \text{ (your CGPA for the Foundation Programme)}$$
